ABOUT ME

Front-End Developer with a strong passion for building responsive and user-friendly websites and web applications. Proficient in HTML, CSS, JavaScript, and modern libraries and frameworks such as React. Known for delivering clean and efficient code, with a continuous drive to stay updated with the latest technologies. Eager to contribute to innovative projects and thrive in dynamic, fast-paced development environments.

PROJECTS

Ecommerce

- Built a Full-Stack E-commerce Website with all essential features: products, cart, wishlist, authentication, password reset, reviews, and a complete Admin Dashboard.
 - Stack: React + Vite + TailwindCSS · Node.js + Express · MongoDB · Cloudinary · Vercel.
 - Optimized for performance, security, and responsive design.
 - Achieved perfect Lighthouse scores:
 - 🚦 Performance: 100 | Best Practices: 100 | SEO: 93 | Accessibility: 90
- [Live Demo](#)
 - [GitHub Repository](#)

CRM Web App

- Developed a multi-role CRM system with separate dashboards for Admin, Employee, and Client roles using React and Firebase.
 - Integrated real-time statistics, task management, and deal tracking features with dynamic data updates.
 - Implemented 4-language support (AR, EN, FR, DE) with dynamic RTL/LTR layout switching.
 - Achieved perfect Lighthouse scores:
 - 🚦 Performance: 100 | Best Practices: 100 | SEO: 85 | Accessibility: 80
 - Responsive design with dark/light themes, and optimized for cross-device performance and maintainability.
- [Live Demo](#)
 - [GitHub Repository](#)

Blog App

- Built a full-stack blogging platform using React, Node.js, Express, and MongoDB, with full JWT authentication and protected routes.
 - Enables users to create, edit, and delete blog posts, manage categories, and upload images using Cloudinary.
 - Achieved outstanding Lighthouse scores:
 - 🚦 Performance: 90 | Best Practices: 92 | SEO: 92 | Accessibility: 80
 - Optimized backend API performance and enhanced user experience with form validation and feedback alerts.
- [Live Demo](#)
 - [GitHub Repository](#)

Github Clone

- Developed a responsive GitHub profile viewer using React, Vite, and the GitHub API
 - Allows users to search for any GitHub username and view profile details, repositories, followers, and real-time rendered README content using Marked.js.
 - Implemented efficient data fetching with Axios, along with error handling and loading state
 - Achieved outstanding Lighthouse scores:
 - 👉 Performance: 100 | SEO: 100 | Accessibility: 91 | Best Practices: 80
 - Clean UI/UX design with full responsiveness, optimized for both desktop and mobile experiences.
- [Live Demo](#)
 - [GitHub Repository](#)
